

# PRESS GLASS D.O.O. IMPLEMENTS ERP SAP S4/HANA

## Finalizing the implementation of SAP ERP system in Croatia plant.

### WHAT IS CHANGING?

- new appearance and structure of documents in certain areas
- new forms of communication between IT systems (document exchange, e.g. EDI)
- new possibilities of personalizing price lists and offers

This is a significant step towards optimizing our business processes and ensuring higher quality customer service. The introduction of SAP S4/HANA is part of our digital transformation and automation efforts, aimed at achieving higher operational efficiency and being fully prepared for the demands of the modern market.
